

MEADOWPARK SCHOOL CAR PARKING INFORMATION

Naturally we would encourage parents living locally to walk to school. If you arrive on foot, always use the front door entrance as the gravel drive is for vehicular access only.

Parents may drive into the playground to drop off/pick up. Keep to the left on the gravel drive at all times and drive very slowly as children may be walking across the playground.

Please find attached a plan of the car parks. We would be grateful if parents would:

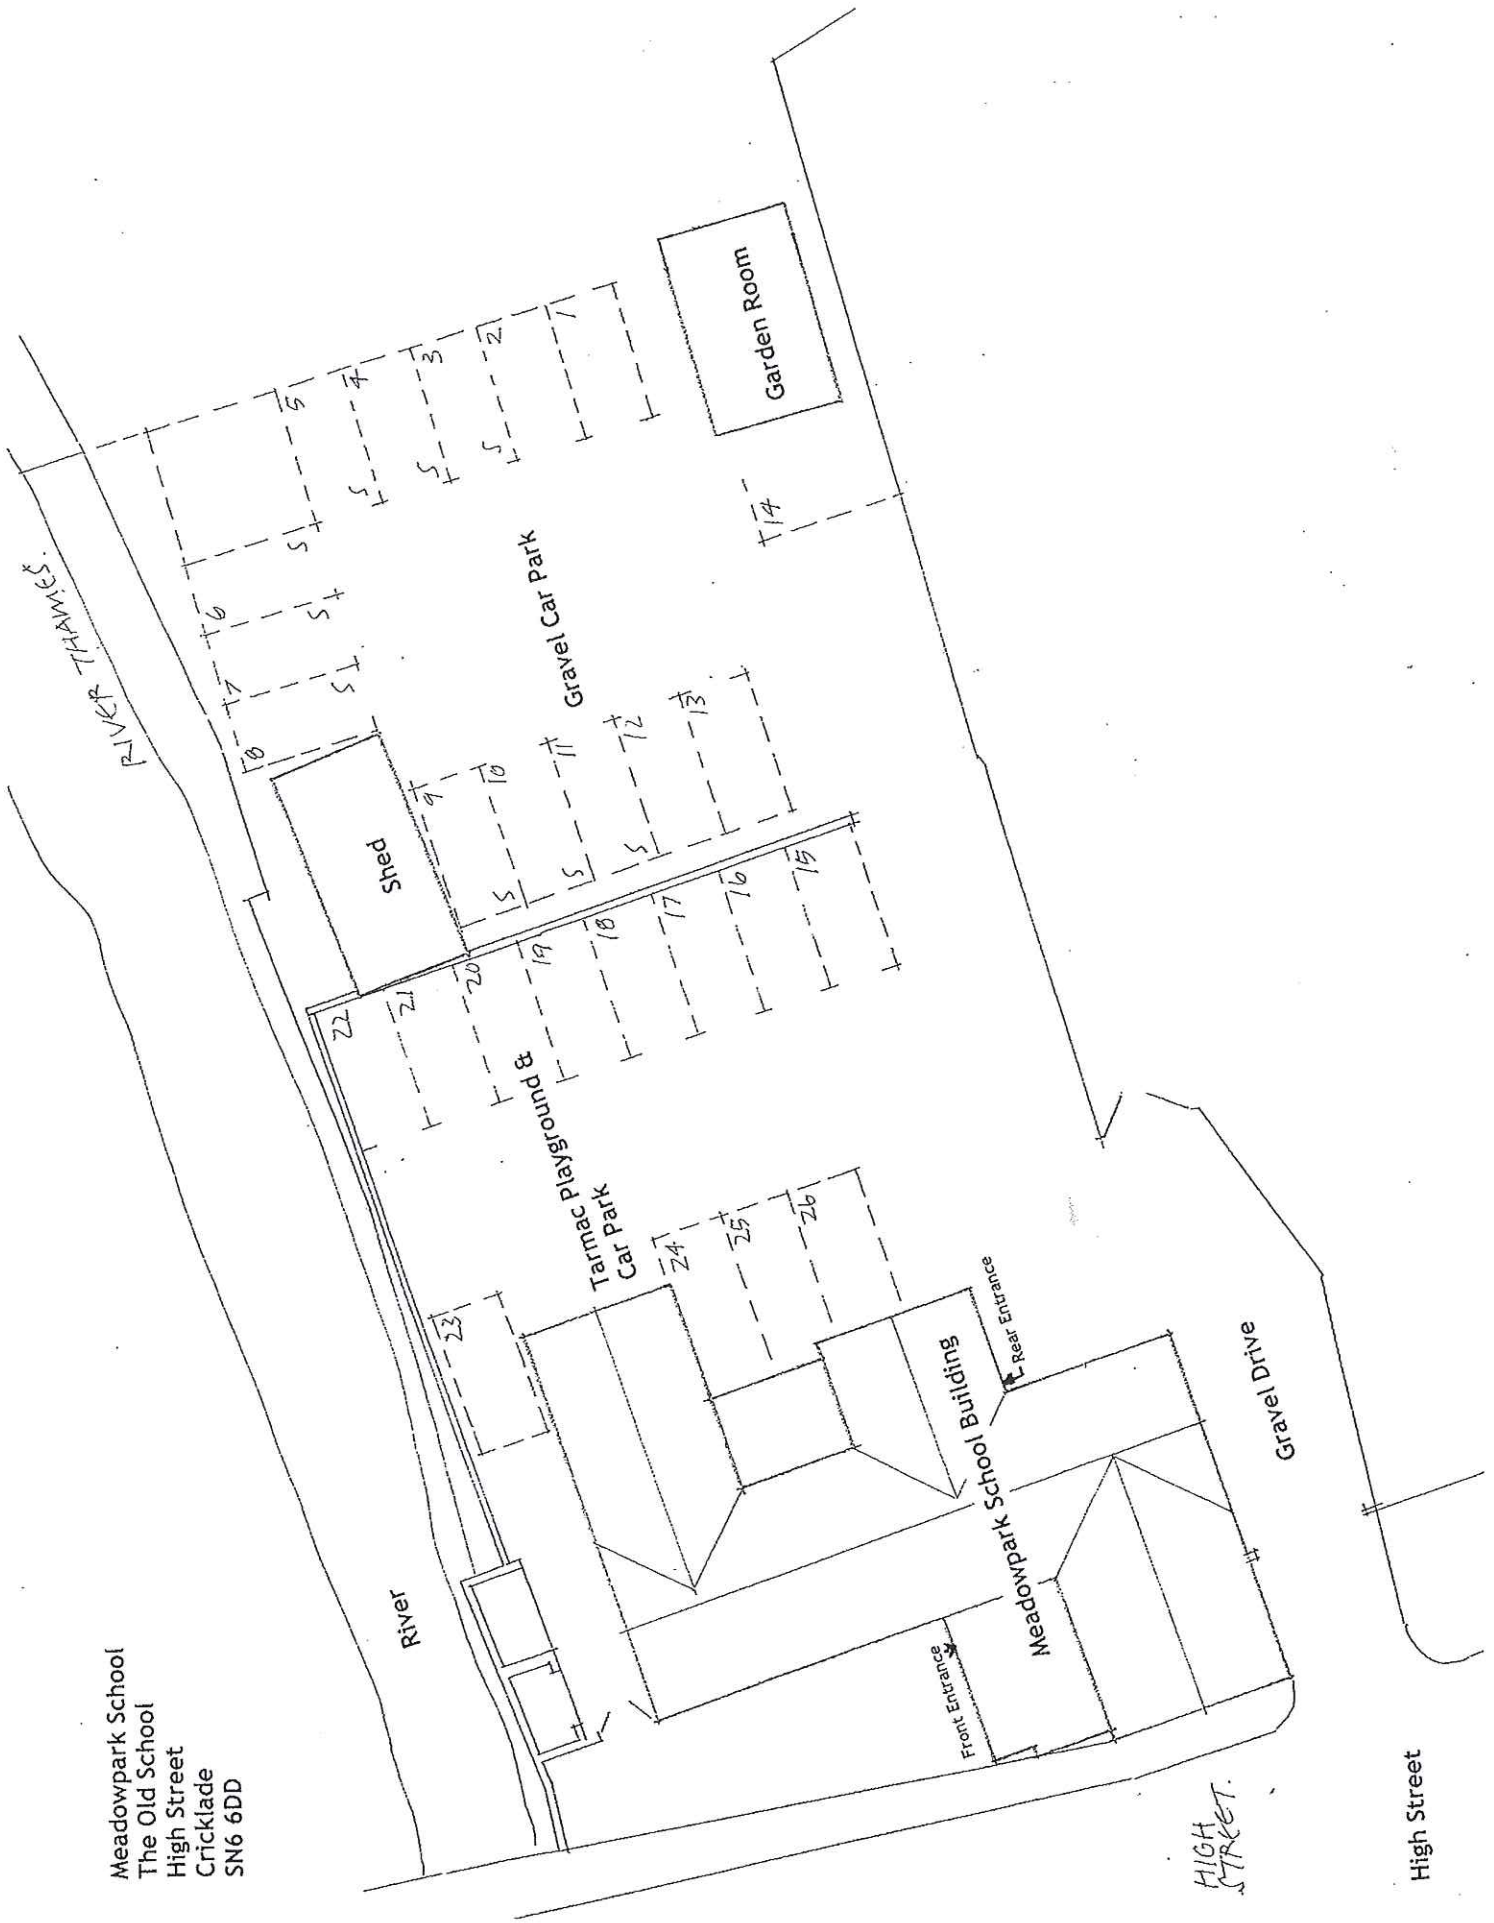

- Use spaces in the gravel car park first, filling up the furthest spaces first. Use the tarmac area only if no spaces remain on the gravel area
- Reverse into a parking space so that your vehicle is ready to drive forwards when leaving rather than having to reverse out of a space
- Park in defined spaces, as outlined on the Car Parking Plan
- Keep clear the entrance to the gravel car park
- Drive with extreme caution in the car park at all times
- If your child is in the Pre-Prep, hold your child's hand when walking through the car park
- In the interests of Health and Safety parents are requested not to "park and stay" in the car park. Between the hours of 3pm to 5pm the car park is for pick up only and not waiting
- Do not park on the gravel drive which is to be kept clear for access

When leaving the car park, keep to the left hand side, look left before going onto the gravel drive and always give priority to vehicles coming into the car park so that they do not have to queue or reverse on the High Street.

The gates will be closed once all the children have arrived (9.15am) and will be re-opened at 3.15pm. If you need to drop off/pick up during the school day, please telephone the school office (752600) and someone will arrange with the staff to expect your arrival. On arrival please park at the front of the school, further along High Street or on The Causeway, to the north of Town Bridge.

Parents are asked to refrain from parking in North Wall in consideration of local residents or from using North Wall as a turning circle to avoid accidents. There is a turning circle further down the road to be used instead.
